HUMBOLDT, TENN.

Recfictions Upon Dr. R. W. Mitchell. Medical Director of the Howard Association-His Reply and the Statement of President Langstuff.

Humboldt Journal, 'Ogtober 12th: "On Wednesday Dr. J. L. M'Gee telegraphed to Memphis, in the name of the mayor, for a yellow-fever nurse to walt on his sister, Mrs. Abner. Failing to receive a reply in time, he repeated the telegram to Brownsville. The telegram was caught at M'Kenzle, and replied to that there was a nurse at that place, who could be stopped as she passed down that day. Mr. M'Gee flagged the train in seventy-five yards of where one of the yellow-fever patients was sick, but Dr. Mitchell, the medical director at Memphis, who was on board, refused to let her get off. The train came on down to the tank at this place, her baggage was put off, and she got off. Dr. Mitchell then came out of the train and asked who would be responsible for the pay; our mayor stepped forward and said Dr. M'Gee, and that he was perfectly responsible, and remarked if he does not pay her i will, and if I do not Humboldt will. Dr. Mitchell then had a few words with the nurse; she got back on the train and went on. Before they reached Memphis, they met President A. D. Langstaff on a special train coming up the road to Enin, and Dr. Mitchell reported to Mr. Langstaff that he had put off a nurse here under a tree, but as there were no provisions for her, he put her back on the train. These were not provisions for her, he put her back on the train. These were not has gained for himself no friends in this place. All honor, however, to President A. D. Langstaff. When he came up, and the case was presented to him, he gladly furnished a nurse free of churge, and added that if any supplies were needed he would furnish them. By this little action President Langstaff has made many warm friends at this place. Our people know him to be a high-toned, honorable gentleman, and with a heart that beats for humanity. In behalf of the family, the community and Humboldt, we return united thanks, and if he ever needs assistance this community will go her might for him."

DR. MITCHELL'S ANSWER. EDITORS APPEAL—An article appeared in the Humboldt Journal of the twelfth instant that I should not have noticed but that several friends in that place have specially called my attention to it. The article alluded to contains some facts and some falsehoods. I was on the train returning home after a six days' leave of absence and found Dr. Wolfolk with one nurse. He had been sent to Hickman, Kentucky, with three nurses upon corner Main and Washington. No medicine ever receive such enthusiastic commondation from those he have used its W. N. Wilkerson & Co., and all druggists keep it.

Including Rendry, we three largest point in individual requisition. Upon his arrival he was informed that neither he nor his nurses were wanted, and that no one been authorized to send for him

near Humboldt the train was stopped and some one informed me that a nurse was wanted there. I replied that the only man on the train was under Dr. Wolfolk's charge. Wolfolk asked me what he should do I told him that after his recent experience he would not be justified in leaving a nurse on an individual request. On the arrival of the train near Humboldt some one inquired a the window if I was on the train, and was an wered in the affirmative. He said to me that a nurse was wanted. In reply to my question he said he was mayor of the town. I told Dr. Wolfolk that he should leave his

there for some time I was informed that the lady, with her trunk, was carried some distance and told to remain under a to until she was sent for, as she would not be permitted to pass through Humboldt. Every one on the train seemed to be very indignant at her treatment (which I had not seen). When informed of it, as it was threatening out diddities. Polyermacher's Electric Belts the rain, I advised Dr. Wolfolk to take her on grand disideratum. Avoid imitations, Book and the train again, which was done with alacrity. I knew the supply-train was on the road, which we met soon after. I informed President Langstaff of the circumstance, and requested him to investigate and leave a nurse if necessary. I never left the train, and never asked one word about compensa tion, as it was something I knew nothing R. W. MITCHELL, M. D. PRESIDENT LANGSTAFF'S STATEMENT. I received a telegram at Moscow depot asking for a nurse for Humbolut, while waiting for a train bound to Memphis. When train arrived at Moscow I saw Dr. Mitchell. He said that an application had been one had been put off there, but the parties

one had been put off there, but the parties failing to come for her promptly, and as rain was threatening he suggested that she get on the train, and requested me to look into the matter when I reached Humboidt. A D. LANGSTAFF, President Howard Association THE HOWARD PHYSICIANS

INMAN, Station D. Bible House, New York. There are Meteor Inventions That flash up for a moment in the newspapers a pass to oblivion. There are also grand discussion which take a permant hold of public estimat and last for all time. Permanent among the lat-class stands CHRISTADORO'S HAIR-DYR, a ve and last for all time. Permanent among the latter class stands CHRISTADORO'S HAIR-DYE, a vegetable preparation, harmless as water, which in five minutes transforms gray hair, or hair of any unpleasant hue, to a glorious black or enchanting brown. Unique in its composition and infallible in its results, it has achieved popularity with both sexes, with every class of society and in all parts of the world. Manufactured by Christadoro, No. 32 William st. New York. Soud by all Druggists. Applied by all Hair-Drussers.

FROM ACUTE TO CHRONIC an easy stage in cases of dyspepota. A slight at On Duty, those Who are Convalescent tack of indigestion, especially when there is a predisposition to digestive weakness of the stomach must speedily culminate in the more obstinate form of the disease. It is well, therefore, to adopt preentive measures early. Although Hostetter's Sto ach Bitters overcomes, if persisted in, cases of dys epsia of long standing, it is obviously the part of isdom to use it ere the malady assumes a chronic phase. This is particularly true, because as dyspep sin advances, it engenders other bodily evils, such as disorder of the liver, constipation or undue loose-ness of the bowels, nervous disorders, hypochondria, sleeplessess. These maladies are both prevented and remedied by the bitters, but how much better to check them in their outset with the great alterative, than to wait until they established a firmer foothold in the system. Surely the advisability of this must be apparent.

PREVENTIVE AND CURE FOR YELLOW A COORDING to the most intelligent medical opinton yellow-fever is intensified malaria, and Dr.
William Alex Green, of Georgia, member and exvice-president of Georgia Medical Association, member of State board of physicians, and chief surgeon
of artillery of A. P. Hill's corps, after great experience in malarial and yellow-fever, indorses and
recommends most bighly in the Cincinnati Medical
Netws, the Bridge (VA.) Sphings Alux and Ison
Mass, as a prevatilive and cure for both of these
dreadful diseases. He states that this mass should
be taken rapidly and in large doses—saturating the
blood with it and putting the system under its infuence as speedily as possible; that it leasens the
pains in the head and limbs, and also the nauge
that under its use the urine rapidly loses its that
bloody character, becoming clear and limpid; of
the paroxyms are rendered milder, less frequent and
of shorter duration; that it is also most beneficial from
the very moment the acute stage subsides, and during convalescence; that he places great reliance in
this mass, using such other adjunct treatment as the
course of the disease may suggest. The Cincinnati
Methcal News urges all to try this remedy, that its
efficacy may be known and nithized.

This mass may be had of a tuggists, or ordered
from the Bedford Alum and Iron Springs Company,
Lynchburg, Virginia, and it can be sent by mail,
post-paid, or express at fifty cents or one dollar a
package, or two dollars and a half or five dollars for
half dozen.

President of the Company.

This mass will be sent free to yellow-few sufferers who are unable to pay for it, and trial su-ply will be sent without charge to physicians desi-ing to test it in their practice. To Yellow-Fever Sufferers Five out of six of my household, near Moscow Tennessee, have lately had the yellow-fever, prevailing in that section. All of them have recovered, the attacks being mittigated and their recovery due, as believe to the use of **Beafford Alum and Iron** Springs Mass, which was used in their cases and before they were attacked. I make this state ment for the benefit of others who may be afflicted with this dread disease, and of put in their reach the knowledge of this great remedy. S. M. DAVIS, Sentember 21, 1878.

Dr. Jones, in the New Orieans Medical and Surg cost Journal, recommends mineral tonics in yellow fever and in malarial hamaturia. The Bedford Alum and Iron Springs Mass contains ten parts of

mowledge of this great remedy. September 21, 1878.

HELP! FOR THE WEAK NERVOUS AND

DEBILITATED The afflicted can now be restored to perfect health and bodily energy, at home, without the use of medicine of any kind.

ELECTRIC BELTS

For self-application to any part of the body, meet every requirement. The most learned physicians and scientific men of Europe and this country indorse them. These noted Curative appliances have now stood the test for upward of thirty years, and are protected by Letters-Patent in all the principal countries of the world. They were decreed the only Award of Marit for Electric Appliances at the great World's Exhibition—Paris, Philadelphia, and elsewhere—and have been found the most valuable, safe, simple, and efficient known treatment for the cure of disease.

READER, ARE YOU AFFLICTED? and wish to recover the same degree health, strength, and energy as experious in former years? Do any of the follows symptoms or class of symptoms meet ye diseased condition? Are you suffering for ill-health in any of its man; and multife diseased condition? Are you suffering from ill-health in any of its man; and multifarious forms, consequent upon a lingering, nervous, chronic or functional disease? Do you need nervous, debilitated, fretful, timid, and lack the power of will and action? Are you subject to loss of memory, have spells of fainting, fullness of blood in the head, feel listless, moping, unfit for business or pleasure, and subject to fits of melancholy? Are your kidneys, stomach, or blood, in a disordered condition? Do you suffer from rheumatism, neuralgia or aches and pains? Have you been indiscreet in early years and find yourself haraesed with a multitude of gloomy symptoms? Are you timid, nervous, and forgetful, and your mind continually dwelling on the subject? Have you lost confidence in yourself and energy for business pursuits? Are you subject to any of the following symptoms: Restless nights, broken sleep, nightunese, confusion of ideas, aversion to society, dizziness in the head, dimness of sight, pimples and blotches on the face and back, and other despondent symptoms? Thousands of young men, the middle-aged, and even the old, suffer from nervous and physical debility. Thousands of females, too, are broken down in health and spirits from disorders peculiar to their sex, and who, from false modesty or neglect prolong their sufferings.
